A REAL FIT FOR THE REAL PROFESSIONAL

It doesn't matter how you wear it, buttoned up, wide open, sleeves rolled, waist tied. At Uncommon Threads we believe you should start with the perfect fit. That's why we set new industry standards by enhancing our entire design process and grading all our garments the same. This allows you to change styles or colors anytime you want, because no matter what size you wear in Uncommon Threads, that size will fit you across our entire product line. After all, nobody likes ill-fitting style.

PROFESSIONAL FIT GUIDE

Use these rules of thumb and size charts below to determine your Uncommon Threads professional fit.

- Buttons should lie smoothly and not pull across the front.
- Coat should just cover your entire seat.
- Cuff, when rolled up, should rest approximately 5" above the bottom of your thumb.
- Coat should have a drop shoulder for greater freedom of movement and comfort.
- Armhole should allow for considerable range of motion.
- Coat should feel centered and not ride too far forward or back.
